STAR150

The STAR 150 Solvent Transfer And Recovery pump is the latest technology from PDX.Gold and is a potent addition to any processing lab. This powerful system pairs perfectly with the industry's leading hydrocarbon extraction systems by decreasing your recovery times and increasing your profits instantly.

FEATURES

- Hydrocarbon solvent recovery
 - Approved for: butane, propane, & blends
- Certified by 3PCertx, licensed professional engineers
- Recovers solvent at pressures up to 150 PSI
- Certified to pressure of 250 PSI
- Displacement: 6.5 CFM free air flow
- Oilless compressor prevents lubricant contamination
- Durable and maintenance free with proper operation
- Recovers 2+ lbs / minute*
- Belt drive - reliable & quiet
- Piston driven compressor
- USA made

All electrical components are UL & CSA approved!

Ideal for Stacking!

TECHNICAL SPECS

- UL & CSA listed, NEMA 7, 2 hp C1D1 explosion proof motor
- Single phase & 3 phase drive available
- Voltage
 - 1-Phase 115/208-230v
 - 3-Phase 208/230/460v
- Free Load Amperage
 - 13.4A (115v) / 6.7A (230v)
 - 3.8A (230v) / 1.9A (460v)
- 1750 RPM
- Noise data: quiet at ~79 dBa
- 100% food grade materials
- Inlet / Outlet - 1/2" tube fitting

* Performance varies depending on your system configuration
